RELIABILITY

Serving the American Farmer for Over 80 Years

ProAg sells and services Federally Subsidized Crop Insurance and Crop Hail Insurance. These coverages are written for the American farmer through the time-tested system of Independent Agents. Unlike many corporate insurance conglomerates, we do not divert our capital or expertise by entering other lines of insurance - ***we only provide crop insurance.***

At ProAg we have a commitment to personal service that was established by founder, Jess Latham, Sr., a wheat farmer turned insurance agent in the early 1920's. We work individually with each insured to prepare a customized plan to manage and reduce risk. This old fashioned attention to customers, treating them fairly and paying claims quickly, is central to the way we do business.

Our recent expansion has given us the opportunity to extend our market presence nationwide. Our priorities remain the same; providing ***innovative*** risk management services with ***integrity*** and ***reliability.***

Which Insurance Plan is Right for You?

Crop insurance is available in a variety of forms and not all plans of insurance are available everywhere or for every crop. Contact your professional ProAg Crop Insurance Agent for assistance in comparing the numerous risk management options available to you and your unique operation.

THE PAST, PRESENT AND FUTURE OF AGRICULTURAL RISK MANAGEMENTSM

ProAg has been servicing American farmers for nearly a century.

When Jess Latham, Sr., founder of ProAg, started his journey in the 1920s, he conducted business with a smile and made deals with merely a handshake. Today, ProAg operates under the same principles of integrity and loyalty. With an unparalleled team of crop insurance professionals eager to make your road a little less bumpy, ProAg stands ready to offer superior risk management services and expertise.
